Re: Mind Control

Dear NEXUS, Where to start, or even if I should. Your issue Feb-March '93, page 41. I'm only up to 44 and can't read on until I have written to you. Mind control--thank God you put this in. I thought I was 'the only one'. Being of a strong will myself, I never thought I was going mad, but can personally testify that HARLAN GIRARD'S TELLING THE ABSOLUTE TRUTH. I have been psychic ever since I can remember. But since my powers have been getting stronger I have had numerous visits from what I call the 'dream police'.

Three times since Dec '92 they have visited me in what I call the etheric and the astral state. They have an inner circle of specially trained psychics, and apparently (so now I found out) when an outside psychic reaches a certain level they zoom in on you. They first approached me nicely. I said no. Secondly they tried to use force in my chest region which I quickly returned to sender. Ouch, it must have hurt him. Wait for it--the third time was a direct attack on my nervous system. I thought I was going to die. I saw what was used on me and it looked like some type of ray gun--and it does affect the central nervous system--it KILLS. It went into my etheric body.

For those of you who don't know what the etheric body is, I will briefly tell you, from an extract out of one of my patient's sheets, used at the clinic. "This is the level that is directly concerned with healing the physical body (or destroying it in the case of our friends). It consists of ether--the state between energy and matter. It is the energy matrix upon which the physical matter of the body tissues exist. It has the same structure as the physical body, including all the anatomical parts and all the organs. It is the etheric body." It is the same principle as Bruce Cathie describes when explaining the world grid. We have our human grid.

Some of the readers might like to know what saved my life. I am a crystal healer and have my own clinic. I also have diplomas in nutrition, colour therapy, acupuncture, and hara diagnosis. So I'm not all that crazy. Well, that night I'd just purchased a double-terminated amethyst crystal. I usually sleep with my new ones, to tune into them before using them in the clinic. Well, when my body was convulsing on the bed during my final attack, I grabbed the crystal, knowing that this time they were using more than just a psychic to get me to do as I was told. I knew my nervous system was burning, I could taste it. The energy from their ray was sucked into the crystal, and now, instead of a perfectly coloured amethyst, it is very yellow in the middle where it has absorbed the rays.

I have also found a special meditation that stops those voices in the head, as I had all that dumped on me as a lead-up

to their finale. What's next? I'll probably have to sleep with an amethyst boulder!

I can say honestly to all the readers out there that are having problems in this area, there is help, and your electromagnetic field can be repaired. We are not defenceless. I have close friends and relatives that will testify that I am telling the truth. I am in the habit of keeping a diary, and the next day after the final event I told them--they thought I was crazy. I very rarely buy your magazine and have no idea why I bought the Feb-March '93 issue, but am glad I did. Those I told the incident to, now believe me and are starting to see the bigger picture. I will leave my name, and address of my clinic, in case any of you need any help.

PS: Sorry about the spelling; it's 2.30 am. Good work on your magazine. I love it!

PPS: The government has forgotten one thing. There are a certain number of individuals on this planet that have their kundalini raised and are using it. Whatever they can throw forward at us with their science--God has implanted in his own. And it will be returned in FULL MEASURE!

Re: Mind Control

Dear Duncan, Thank you for promptly sending numbers 11 and 12 of your NEXUS New Times. I congratulate you and your wife on the birth of daughter Jacinta. I wish her that after a highly satisfying and soul-purifying life on the planet Earth, she will continue to live in a higher planet!

I was accidentally introduced to NEXUS last year. I was greatly impressed with your paper because it is dealing with very basic problems in the scientific way. Most of the topics introduced in your paper will be a very important part of 21st century living.

I am particularly interested in Glenn Krawczyk's "Mind Control & The New World Order" article. I can relate to this part: "Doctors in Sweden have been placing brain transmitters in the heads of anaesthetised patients without their consent or knowledge for over thirty years." I have been implanted, in a military hospital in Budapest, Hungary, as a part of ear-pinback surgery, in the summer of 1958. Since, or probably a few years before that, I was a research subject of the Warsaw Pact Strategic Mind Control Research. I am still part of the Hungarian Military Mind Control Experiment.

Because of this arrangement originally without my consent, I had a most unusual but I feel very useful life as far

as the future of science and the quality and health of the life of homo sapiens is concerned in the next century.

I would like to talk with you or with Glenn Krawczyk or any other member of your staff. The subject would be the positive aspects of the Warsaw Pact Mind Control Experience, as far as the stimulation of human consciousness, harmonising the life force of human beings from any distance, and such stopping sickness to manifest itself to physical dimension, and the lot more.

I feel this would give your readers a good all-round knowledge of the positive and negative aspects of mind control experience.

My personal opinion of the matter is that mind research with implanted human subject should continue but with, only with, the consent of the research subject!

International chess master and one of the most talented researchers of Hungary mind and aura research and telepathic suggestion, Dr Laszlo Liptay of Budapest, would be a person to be interviewed about the future and direction of the mind research.

I shall be in my present address until the end of March 1993. I hope to hear from you, Duncan, before that time.

Sincerely,
Paul C. Dozsa, Hungarian chess master, Numinbah, Qld.

Re: Mexican UFOs

Dear Duncan, I read the article entitled "The World's Largest UFO Flap--Mexico City" in the latest NEXUS and was amazed. How is it that craft of that sort (of unknown origin) can appear over one of the world's largest cities since 1991 and the general public outside of Mexico has not heard about it?

What is happening on this Planet that we can have these experiences and nobody will print it (except NEXUS)? I think that journalists and television reporters today must be either afraid of their publishers, totally incompetent or forcibly restrained from printing the truth. Which of these do readers think that it is? I have my views on why journalists are not printing the truth, but there's no point in airing them here.

I'm sure many Australian and NZ journalists read NEXUS. I'd like to issue a challenge to you all to follow up this information, contact 60 Minutes in Mexico City and bring out the truth. This must be the biggest and best-documented story you'll ever get. Will you do it and let the public know what's really going on?

Congratulations to NEXUS editor and staff for a wonderful article that challenges us all. Keep up the good work.

Thomas B., Tewantin, Qld.
(Dear Thomas, I sympathise with your challenge to journalists reading NEXUS, as I know a lot of them do. I

am also surprised that the local UFO research groups are not informing their members of it either. Maybe the rumour about US intelligence infiltrating the hierarchies of these groups is true after all? Ed.)

Re: Festival For The Future

Dear Duncan,
WHATEVER HAPPENED TO THE FUTURE?!!!

We avidly read all your ads and editorial extolling the virtues of the FESTIVAL OF THE FUTURE. We dutifully trekked down and saw your name on the posters, but not only no sign of you, but no mention of the Festival ever occurred in the following two issues of NEXUS!

Wot happened?! We feel cut off, let down, and an inconsistency in NEXUS.

As for the Festival, it was the most inspiring collection of genuine non-hype brains I personally have ever seen and I have made a lifelong quest of such things! Tho' the food and weather were an ordeal, we were very impressed with Keith Ryall and his non-multinational castle and co-workers, as they told us they were called, and came away inspired.

Thanking you, and rather eager for an answer,

Yours sincerely,
Joe R., Potts Point, NSW.

(Dear Joe, sorry to hear you feel cut off and let down with NEXUS for failing to report on the festival. I was unable to attend the festival because the organisers were unable to organise a flight there and back for me. I received very mixed feedback about the festival itself, and thus was unclear about what to tell others. Glad to see you had a good time. Ed.)

Re: David Childress Visit

Dear Duncan, Went to the David Childress slide show on Saturday - magnificent! It's really comforting to know that there are people like him searching for truth and having enough courage to present that truth to the public. The amount of information that I went home with was astounding! David obviously knows his work, knows what, where and who to look for to get the answers.

It's my hope that many, many more will begin to really open their eyes and question the system and some day we can all be free, really free from control and dis-information and back in tune with Nature. Thank you NEXUS, excellent work!

PS: Duncan, you're the nicest looking Ed I've ever seen!

(Dear Whoever you are, you obviously have not seen too many Eds, but thanks anyway for your kind comments. Ed.)
